

Gandhinagar Institute of Science Gandhinagar University

A Report on
“STUDENT INNOVATION FEST - 2023”
(10th August 2023, Thursday)

Abstract:

VIJNANA BHARATI is a Nationalistic, patriotic and humanistic a science movement with Swadeshi spirit, Involving Science, Technology & Innovation aim at Social Development, Social Harmony, Ecological Balance & Environmental Sanity. Considering the Central Government theme of celebrating Azadi Ka Amrit Mahotsav, Vigyan Gurjari (Gujarat Unit of VIBHA) is going organizing National Level “Student Innovation Fest (SIF) 2023“ on 10th August 2023. GANDHINAGAR UNIVERSITY (GU) had a privilege of becoming an event partner for the same, as a part of which, GU had hosted an “EXPERT LECTURE” on same day at its own green lush campus.

Program overview:

The event was initiated with lamp lightening by dignitaries and prayer. Deputy Registrar (Academics), Professor Nirav Joshi, Controller of Examination, Dr. Umang Patel, Dean, Faculty of Arts and Science, Dr. Nirupama Patel, Head of the Institute of Gandhinagar Institute of Science, Dr. Gautam Patel, and guest of honor, Dr. Ishan Rawal graced the function from the Dias. Welcome speech was given by Miss Khushi Chitania, Student of M.Sc. Microbiology, Semester-1. The expert talk had been organized in order to create the awareness amongst the students, research scholars and faculties involved in research activities regarding various start-ups schemes, innovation cells and funding schemes by government as well as private organizations.

The talk was given by Dr. Ishan Rawal, Scientist B, Gandhinagar Biotechnology Research Center (GBRC). Title of the talk was “Basics of Mass Spectroscopy”. He discusses the role and mechanism of Spectroscopy as well recent advances in technology. He also explored the interdisciplinary aspects for start-ups and how people from different fields come together to work out on innovations. He cited many examples as well as success stories to encourage the students to come forward with new ideas. Session was followed by question-answers.

Greeting message from Dr. Chaitanya Joshi, President, Vigyan Gurjari displayed on you-tube for sharing detail information regarding Vigyan Gurjari activities. The session was fruitfully accomplished with Vote of Thanks by Event coordinator Dr. Rachana Shukla, Assistant Professor, Department of Microbiology, Gandhinagar Institute of Science.

The way Participants Benefited:

- Participants knew about the Basics of Mass Spectroscopy.
- Participants received information regarding the engineering aspects of innovation with the use of biological entity.
- Information received regarding the funding agencies and proper way of filing the proposals to get financial support.

Feedback:

Positive feedback received by the students. All the participants were satisfied with the topic and way of delivering the talk by guest lecturer. Most of the students were agree to receive future notifications regarding the events organized by GU.
